Personal Profile	<p>I am currently a student at Fontys University of Applied Sciences and plan to graduate in Video Game Design. I consider myself a very goal-driven person. Each project I aim towards a higher standard. Whether I am developing for video games or embedded systems, I work best in teams which share similar visions and motivations towards the end goal. My eagerness to keep learning results in my countless hours of researches both serious and casual.</p> <p>In my free time I enjoy playing multiplayer video games that express your creativity, challenge your thinking, and test your communication with others. I also participate in airsoft events from time to time where teamwork and communication skills are tested and sharpened in high-stress situations.</p>
Employment	<p>Intern, UWP Deployment Feb 2017 – Jun 2017 Sparkling Society <i>Delft, Netherlands</i></p> <p>During my internship I was responsible for researching and designing a strategy for deployment of the Sparkling Society's pre-existing and future games to the UWP platform. At the end of my internship I had successfully deployed two existing games to UWP with a third following soon after.</p>
Education	<p>Game Design & Technology 2015 – Now Fontys Hogescholen <i>Eindhoven, Netherlands</i></p> <p>ICT & Technology 2014 – Now Fontys Hogescholen <i>Eindhoven, Netherlands</i></p> <p>VWO 2006 - 2012 Alphamax Academy <i>Paramaribo, Suriname</i></p>

Skills	Language	Dutch Native Speaker English Fluent Surinamese Basic		
	Software Development	Basic	Decent	Experienced
	❖ Unity C# Scripting			X
